

ELECTRA FIELD HAS NEW WELLS

Completions in Wichita County in Past Week Announced.

During the past week in Wichita county, the Electra field reported the following completions with the results: Magnolia Petroleum company No. 27 Piper, 45 barrels, 1915 feet deep; Gulf Production company No. 1 Burnett, 25 barrels, 1515 feet; Homestead Oil and Refining company No. 1 Heydrick Burnett, abandoned at 2808 feet; Tri-Mutual Oil company No. 3 Ward and Todd, 45 barrels, 155 feet; the 1915 oil company No. 3 Esch, 56 barrels, 125 feet; Irondale Development company No. 31 Ward and Todd, 35 barrels.

Acme-Electra Oil company No. 1 Ward and Todd, was found dry at 1950 feet.

ORDER DEEP TEST WELL.

A report from Brady, McCulloch county, Texas, says that another deep test has been contracted for and it is to be 3500 feet on the 89th east; Homestead Oil and Refining company No. 1. The location is on the edge of Orincho and McCulloch counties two and a half miles northwest of Malvin.

Dr. E. D. Strong, Phys. and Surg., 211 E. B. Bldg. Ph. 271-1571.—Adv.

MAKE YOUR SHOES WEAR LONGER

Ten months ago, W. H. Kelley, a lumber salesman of Omaha, had a pair of shoes re-soled with Neolin Soles. Mr. Kelley does much walking and has worn these shoes constantly. He says "they are still good for another ten months of wear."

Good shoe stores carry Neolin-soled shoes in many styles for men, women and children. They cost you no more than shoes that give less wear. Neolin Soles are also available everywhere for re-soles. Remember—these soles are created by science to be what soles should be. They are comfortable and waterproof—as well as long-wearing. They are made by The Goodrich Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

Neolin Soles

RAINS HANDICAP BURKBURNETT

New Production For Week Is Slight; Van Cleave Pool Well Defined.

Wichita Falls, Tex., April 12.—The rains and other bad weather of the past week show an effect in the report of completions from the Wichita Falls oil fields, and also accounted responsible for the small increase in production, which amounts to the barrels. The report of the present week may be rightly expected to show a decrease in pipeline runs, because of the havoc wrought by the storm of Sunday and Tuesday nights which affected more than a third of the wells in the Burk Burnett new pool, and it will be some weeks before the wells producers of drilling wells may be back to normal.

Again, the McClain Oil company is at the front with the largest wells brought in for the week just past. No. 2 Hardin of this company is a 629 barrel producer and No. 8 is better than 825 barrels. The other completions are comparatively few but the size of wells is up to the standard for wells in this section.

The Van Cleave tract seems to have the line of production pretty well defined on all three sides at present, and several dry holes in this tract are reported. There are also some good wells averaging as high in production as any in the new pool.

The Burk Burnett new pool completions follow:

Adams Oil company, No. 2 Van Cleave, 400 barrels, 1820 feet; Apex Oil company, No. 1 Denton, 150 barrels, 1800 feet sand.

Burkburnett Petroleum company, No. 1 Van Cleave, 150 barrels, 1650 feet sand.

Brundage Hancock Oil company, No. 1 Van Cleave, dry and abandoned at 1890 feet.

Burk Barwise Oil company, No. 1 Van Cleave, abandoned as dry at 2015 feet.

Burkburnett Dings Oil company, No. 1 Van Cleave, dry and abandoned at 1740 feet.

Clover Leaf Oil company, No. 1 Van Cleave, dry at 1880 feet.

Ivies Gooch Oil company, No. 1 Van Cleave, 250 barrels, 1850 feet sand.

Ligon Blair Oil company, No. 2 Wilson, 200 barrels, 1850 feet.

Magnolia Petroleum company, No. 1 Night of Way, 125 barrels, 1650 feet sand.

McClain Oil company, No. 2 Hardin, 650 barrels, 1850 feet sand.

McClain Oil company, No. 6 Hardin, 325 barrels, 1650 feet sand.

Pickles and Myers, No. 1 Langford.

Oyster Block 25, 225 barrels, 1600 feet.

School Block Oil company, No. 3, School Block, 150 barrels, 1600 feet sand.

Struggles-Ardie Oil company, No. 1 McPhail, 150 barrels, 1600 feet sand.

Young Oil company, No. 1 Conner, 25 barrels, after 25 quart shot.

New Locations.

Several new locations are reported in the new Burk Burnett pool the past week. These include:

Contractors Oil company, No. 1 Vogel, block 14, Red River valley lands.

Magnolia Petroleum company, No. 2 Fea, block 40.

McClain Oil company, Nos. 10, 11, 12, 13, 14, 15, 16 and 17, Hardin, W. P. Dubose Survey.

Seawall et al. No. 1 Hardin.

The Texas company, Nos. 2, 3, 4, 5 and 6, Hardin, lease R.

Centenary Oil company, No. 4 and No. 2, J. E. Haney, block 51, Red River Valley lands.

In the East Sunshine Hill district, there is one completion reported. The 1915 Oil company's No. 4 M. A. Esch, a 54 barrel producer at 880 feet. Location has been made and work started on No. 5. The Fairview Oil company has made location for their No. 2, P. J. Langford.

The only other completions reported in the district are at Iowa Park. Clay-Park No. 4 Zink is a 30 barrel well at 800 feet and Lee Farm Oil company's No. 12 Lee Farm, is reported a 50 barrel well at 800 feet.

Attention, Druggists and Soda Water Dealers

As you well know on May 1st, 1919, you will have to charge and collect a "War Tax" on all Soda Water, Medicines, Toilet Preparations, etc.

You must be accurate and prompt in handling this money for the Government. You cannot afford to do this with brains, pencils and paper. It is too slow and not satisfactory. "Never do with brains and hands what machinery can do for you."

Let a special built "War Tax" National Cash Register do the work for you. It is quicker, more accurate and more positive. It will save you time and money.

Investigate today—Call at our office and get a Demonstration. Don't delay—May 1st will soon be here and you should be prepared to meet the issue in a business like way.

National Cash Register Co.

361 Myrtle Ave., El Paso, Tex.

POSSES CONTINUE SEARCH FOR COLORADO SLAYERS

Pueblo, Colo., April 12.—Posses continued today the search for the two men who shot and killed E. C. Parks, of Pueblo, and William Hunter of Bry, Colo., near here.

Reports from Bry say that practically every person in the little town has joined in the search and that they were hopeful of capturing the men. The murderers were believed to be hiding somewhere in the vicinity of Cedarwood.

Hunter had on his person \$2000 in cash and securities, which were found unaccounted for.

WINNER OFFICER HERE.

Jay L. Snyder, vice president and general manager of the Weimer Oil company, and E. R. Evans, sales manager of the same concern, were visitors in El Paso the last of the week. The company has holdings in the Ranger and Humble fields of Texas.

If you are in the market for a home, see A. P. Coles & Bros., 201 North Oregon Street, before buying. We have a large list of attractive bungalows and residences, upon which easy terms can be arranged.—Adv.

Go to Church Sunday.

The church has fulfilled its duty. Have you found any place where folks are that is free from faults? That's the very reason for the existence of the church, and its fundamental purpose is to help overcome these faults.—Adv.

BETTER RAIL SERVICE INTO MEXICO IS BEING URGED

Ing. E. Mauret, railway inspector for the department of communications of Mexico, conferred Friday with the El Paso chamber of commerce regarding the railway service between Juarez and Torreon.

Mr. Mauret stated that he was leaving for the city of Mexico and would present the situation to the minister of communications. He carries with him a letter from the president of the Juarez chamber of commerce explaining the views of the business men of Juarez, and a second letter from Charles N. Russell, president of the El Paso chamber of commerce, in which Mr. Russell, after picturing the present railway situation, expresses the hope that the railway department will hasten relief.

FIFTH CAVALRY BAND TO HONOR FORMER LEADER

A complimentary concert will be given by the Fifth Cavalry band in honor of former band leader Edgar J. H. Smith.

Program from 2:45 to 3:45 p. m. Henry Fleck will conduct.

The program is made up of old favorites of "Joe" Smith as follows: March, "American Eagle"; Overture, "Bohemian Girl"; Riffs; fantasia, "Chanson Russe"; Smith; waltz.

"Spiny," Pops; 1891, "Glow Worm"; "Lilacs," excerpts from The Spring Maid; Reinhardt; finale, "Fifth Cavalry March," Cain; "And Long Syde."

Lieut. Rush will be discharged Monday. His successor has not been appointed.

SEVENTH CAVALRY BAND TO SERENADE AT BALL GAME

Sunday afternoon at Garay Owen ball field at Fort Bliss the Tompkins Terriers of the Seventh cavalry will meet the Pass City all star baseball team at 2:15 o'clock. Arrangements have been made for the removal of seats from the inn to the baseball field by secretary Mat Hamback, in order that plenty of seats may be had for the game. The baseball field is east of the wireless towers and is directly back of the inn. The Seventh cavalry team has issued an invitation to the Pass City team to have dinner with the regiment Sunday. Dancing will be held in the inn following the game.

STORAGE COAL DOMESTIC OR STEAM

Where Fortunes are Being Made— Van Cleave Farmlands BURKBURNETT Home of— Marine Helen-Elizabeth Van Cleave Horne

Silver-Burk —The Last of the Fortune Makers

You probably would like to buy a few shares in Marine, or Helen-Elizabeth, or Van Cleave, or Horne, at PAR. ONCE UPON A TIME you had the opportunity—BUT NEVER AGAIN. You can do this, however. You can buy stock in a company whose holdings are JAM-UP to these famous PRODUCERS and at PAR, too. But not FOREVER. You've got to make up your mind and ACT QUICK. Ten minutes ago is ancient history in the oil business. This is the game where men go to bed facing poverty and get up RICH. That is, the ones who INVEST get up rich. You've got to have nerve enough to make a start—it doesn't take much, though. For instance, the man who had nerve enough to invest a hundred dollars in the Fowler farm—woke up to find himself worth TWENTY THOUSAND DOLLARS from that investment.

Silver Burk is POSITIVELY the safest buy in the Burk Burnett field today—and the Burk Burnett field is where all the fortunes have been made by the little investor. And Silver-Burk stock is selling FAST—a week—at the longest—and if you haven't bought then you've let another opportunity go by.

The Texas Company Will Pay The Gulf Company Will Pay The Southwest Company Will Pay

These big oil companies—the three of them—will pay one-eighth royalty to the Leon River Royalty Company, of Comanche, Texas.

The value of this one-eighth royalty is hard to estimate—it is based, of course, upon production. These three companies are drilling five wells and are under agreement to pay an eighth royalty to the

LEON RIVER ROYALTY COMPANY

If The Leon River Royalty Company owned an eighth of the production of the Knowles well in Comanche County it would pay approximately a million dollars a year to that company—one-eighth looks small—but it isn't; it means one barrel out of eight barrels. A barrel of oil is worth \$2.25 to \$2.50 and when you get a well running a thousand barrels or over your income is enormous. The beauty of a royalty is that the expense is on the other fellow—he takes the chance—he puts up the money for drilling—he loses if there is a loss—but these companies are big enough and strong enough—the Texas Company being the Standard Oil Company of Texas—to try again—these oil companies don't drill except in proven fields.

The **TEXAS COMPANY** is now drilling two wells in the Ranger field, one-eighth of which royalty is to be paid to the **LEON RIVER ROYALTY COMPANY.**

The **GULF COMPANY** is also drilling one well in the Ranger field, one-eighth royalty to be paid to the **LEON RIVER ROYALTY COMPANY.**

The **SOUTHWEST COMPANY** is now drilling two wells in the Duke field, one-eighth royalty of which will be paid to the **LEON RIVER ROYALTY COMPANY.**

It is needless for us to devote space giving you the exact location of these wells—you can absolutely depend upon the judgment of these giant companies as to where to drill.

The **LEON RIVER ROYALTY COMPANY** in addition own a valuable thirty-acre lease in the Duke field, on adjacent property to the Knowles, which will either be drilled by the company or leased on a profitable basis.

The **LEON RIVER ROYALTY COMPANY** own a twenty-acre lease on property close to the Sabano well—when the Sabano well comes in this lease should be worth the company's entire capitalization of \$100,000.

This company is headed by J. E. Spencer, President Bank of Carbon, Carbon, Texas, and Vice President of the First State Bank of Carbon, Texas.

We Offer Balance of an Allotment of Twenty-Five Hundred Shares at \$1.50 net

This stock is being bought by those who are convinced of the future—the great future of Comanche County—the field that knows no failure—the field of great wells—great productions. Send us your order today for **LEON RIVER ROYALTY** today at \$1.50 per share.

How Motor Trucks Released 885 Freight Cars in One Week

Akron is the rubber center of the world—Cleveland the lakeport of enterprise.

Distance between points—40 miles.

Freight rate, 27 cents per hundredweight—plus cartage costs to and from terminals.

Motor truck charge, 40 cents from collection to delivery point—service quicker, more personal, satisfactory and economical.

Today 885 fewer freight cars ply between Cleveland and Akron—motor trucks carry the tonnage.

But mark this. In the most serious venture of their lives the pioneers of this scheme—putting the yardstick of value to every dollar spent on equipment—chose as the foundation for all their trucks **GOODRICH DE LUXE TRUCK TIRES.**

GOODRICH quality is today their mainstay—canceling thousands of dollars of expense through their deep, sturdy tread.

And they'll do the same for you—whatever your enterprise.

THE B. F. GOODRICH RUBBER CO.

GOODRICH DE LUXE TRUCK TIRES
